EDUCATION

•SRM Institute Of Technology   *2020-2024*
Btech Computer science and engineering   CGPA: 8.91

•Sir Sivaswami Kalalaya Hr Sec School   *2020*
Tamil Nadu Board of Secondary Education (DGE)   Percentage: 71

•Gill Adarsh Matric Hr Sec School   *2018*
Tamil Nadu Board of Secondary Education (DGE)   Percentage: 83.4

PROJECTS

•E-voting system

It is an online based voting systems which is trying to implement the centralized block chain by hashing and mining the data

- Tools & technologies used: Django,HTML, CSS, Python and Blockchain

- The projects contains implementation of centralized block chain in an voting system. The vote which has been entered by the voter will be stored in the form of hash values which consists of previous hash which will be further mined and verified by the miners of system. It provides a secured environment for the data.

•Article summarizer

Article or News will get summarized or restatement of main points using NLTK.

- Tools & technologies used: Python tkinter and NLTK

- The project contains implementation of NLTK(Natural Language Toolkit) which work with human language data for applying in statistical natural language processing(NLP). This project is useful for summarizing or extraction of the main points.

CERTIFICATION

•Data science for Engineers NPTEL   *Apr 2023*

- Scored 62 percentage

•Cloud Computing NPTEL   *May 2023*

- Scored 75 percentage

TECHNICAL SKILLS AND INTERESTS

Programming-Languages: Python, Java, C and C++
Front-end: HTML,Java Script and CSS
Frameworks: Django
Databases: SQL
Areas of Interest:Backend and Machine Learning

ADDITIONAL

•Attended a 2 days workshop on Data Analytics and Machine Learning   *May 2022*

- Organized by SRM MTS Student Chapter

•I regularly engage in coding on platforms such as Leetcode, Codechef and Hackerrank

•Languages: Tamil and English
